國立中正大學105學年度碩士班招生考試試題

共同科目:英文

(B) install

第4節

第 | 頁,共5頁

作答說明:本測驗共三部分,共 50 題,每題配分為 2 分,試題皆為單一選擇題,請選出一個正確或最適當的答案,答錯不倒扣。答案需依題號順序清楚填答在答案卷。考完後將「答案卷」及「試題卷」一併繳回。

Part 1: Vocabulary (40%) Directions: Choose the appropriate words or phrases that best fit the blanks. 1. Experts in urban planning acknowledge that there are many ways to measure energy efficiency, an idea that encompasses the quantity and quality of energy	答案,答	答錯不倒扣。答案需依題號順序清楚填	答在答案卷	卷。考完後將「答案卷」及「試題卷」一併繳回。		
Directions: Choose the appropriate words or phrases that best fit the blanks. 1. Experts in urban planning acknowledge that there are many ways to measure energy efficiency, an idea that encompasses the quantity and quality of energy	Part 1· \	Vocabulary (40%)		•		
1. Experts in urban planning acknowledge that there are many ways to measure energy efficiency, an idea that encompasses the quantity and quality of energy		* · · · · · · · · · · · · · · · · · · ·	r nhrases th	nat hest fit the blanks		
an idea that encompasses the quantity and quality of energy						
(A) conceded (B) consumed (D) discarded 2. Houston, where downtown high-rises are hard to air-condition and where driving is essential for work or recreation, is one of the Annerican cities in energy use. (A) unproductive (B) inadequate (C) inefficient (B) inadequate (D) incompetent 3. The climate conference represented an important turning point in world history because the world leaders attending the meeting now recognize the of the problem. (A) resolution (C) urgency (B) insistence (B) insistence (B) insistence (B) insistence (C) inefficient (D) firmness 4. Exercise has health benefits, but losing weight may not be among them. A new study shows that people who take up an exercise program wind up heavier afterward than they were at the start. (A) innumerable (C) unbounded (B) boundless (D) inexhaustible 5. Scientists have proved that strong economic growth and a safer environment no longer have to with one another (A) struggle (C) engage (B) conflict (D) appoint 6. A study suggests that a short nap could reduce impulsive behavior and improve the ability to trustration. (A) withstand (C) abide (B) struggle (C) obsessive (B) faithful (D) committed (E) the research acknowledged that the sample of his research is small and may not be to other populations. (A) ioyal (C) obsessive (D) committed (D) committed (E) Problem is the ultimate goal of fossil fuels with renewable energy will require accelerated research and investment, and technological breakthroughs. (C) engaging (D) applicable (D) engaging (D) exchanging (D) exchanging (E) engaging (D) exchanging (E) engaging (D) exchanging (E) engaging (E) e	••	an idea that encompasses the qual	ntity and di	ality of energy		
(B) consumed (B) consumed (C) indeficient (B) inadequate (D) incompetent (B) inadequate (D) incompetent (D) incompetent (D) incompetent (D) incompetent (E) inadequate (E) inadequate (D) incompetent (E) inadequate (E) inadequate (E) inadequate (D) incompetent (E) inadequate (E) inadequate (E) inadequate (D) incompetent (E) inadequate (E) i						
2. Houston, where downtown high-rises are hard to air-condition and where driving is essential for work or recreation, is one of the American cities in energy use. (A) unproductive (C) inefficient (B) inadequate (D) incompetent 3. The climate conference represented an important turning point in world history because the world leaders attending the meeting now recognize the of the problem. (A) resolution (C) urgency (B) insistence (D) firmness 4. Exercise has health benefits, but losing weight may not be among them. A new study shows that people who take up an exercise program wind up heavier afterward than they were at the start. (A) innumerable (C) unbounded (B) boundless (D) inexhaustible 5. Scientists have proved that strong economic growth and a safer environment no longer have to with one another. (A) struggle (C) engage (B) conflict (D) appoint 6. A study suggests that a short nap could reduce impulsive behavior and improve the ability to rustration. (A) withstand (C) abide (B) struggle (D) battle 7. It is very important for all the countries to be firmly to the right direction of building a new model of major country relations in order to face climate change as a huge challenge. (A) loyal (C) obsessive (B) faithful (D) committed 8. The research acknowledged that the sample of his research is small and may not be to other populations. (A) spreading (C) reliable (B) dispersing (C) reliable (B) dispersing (D) exchanging (B) replacing (D) exchanging (D) exchanging (B) replacing (D) exchanging (D) exchanging (E) engaging (B) replacing (D) exchanging (D) exchanging (E) engaging (B) replacing (D) plea 11. El Nino occurs every two to seven years. It is associated with heavy rain and global warming. It also property and residents in El Nino-driven regions. (A) discloses (D) threatens 12. People usually use their senses to feel the word. With the help of virtual reality, computers will be able to three-dimensional environment for people to		` '	, ,			
work or recreation, is one of the American cities in energy use. (A) unproductive (C) inefficient (B) inadequate (D) incompetent 3. The climate conference represented an important turning point in world history because the world leaders attending the meeting now recognize the of the problem. (A) resolution (C) urgency (B) insistence (D) firmness Exercise has health benefits, but losing weight may not be among them. A new study shows that people who take up an exercise program wind up heavier afterward than they were at the start. (A) innumerable (C) unbounded (B) boundless (D) inexhaustible Scientists have proved that strong economic growth and a safer environment no longer have to with one another. (A) struggle (C) engage (B) conflict A study suggests that a short nap could reduce impulsive behavior and improve the ability to frustration. (A) withstand (C) abide (B) struggle (D) battle 1 It is very important for all the countries to be firmly to the right direction of building a new model of major country relations in order to face climate change as a huge challenge. (A) loyal (C) obsessive (B) faithful (D) committed 3. The research acknowledged that the sample of his research is small and may not be to other populations. (A) spreading (C) reliable (B) dispersing (D) applicable 9. While legislation and regulation are essential to set the ground rules, the ultimate goal of fossil fuels with renewable energy will require accelerated research and investment, and technological breakthroughs. (A) shifting (C) engaging (B) replacing (D) exchanging 10. Advances in technology might make Antarctica more accessible three decades from now. And scholars warn that the for resources in an energy-hungry world could raise pressure to renegotiate Antarctica's treaties. (A) petition (C) demand (B) appeal (D) plea 11. El Nino occurs every two to seven years. It is associated with heavy rain and global warming. It also property and residents in El Nino-driven regions. (A) disc	2	- ,	. '
